## HIGHLIGHTS OF SPANISH ASTROPHYSICS III

Book Condition: New. Publisher/Verlag: Springer Netherlands | Proceedings of the fifth Scientific Meeting of the Spanish Astronomical Society (SEA), held in Toledo, Spain, September 9-13, 2002 | Proceedings of the Fifth Scientific Meeting of the Spanish Astronomical Society (SEA) held in Toledo, Spain, September 9-13, 2002 | This volume contains the Proceedings of the Fifth Scientific Meeting of the Spanish Astronomical Society (Sociedad Espanola de Astronomia, SEA). The meeting was held at the Universidad de Castilla La Mancha in Toledo, from September 9 to 13, 2002. The event brought together 219 participants who presented their latest results in many different subjects. In comparison with the previous scientific meetings of the Society, the numbers of oral talks and poster contributions (122 and 64, respectively) are rapidly increasing, confirming that the SEA conferences are becoming a point of reference to assess the interests and achievements of astrophysical research in Spain. During the meeting, the SEA made public the granting of the Prize to the Best Spanish Ph. D. Thesis in Astronomy and Astrophysics for the period 2000-2001 ex aequo to Dr. A. Zurita and Dr. E. Villaver. This is the second time that the SEA is awarding this prize, which aims to encourage young Spanish astrophysicists to pursue a high level scientific career. The Society is indebted to the Universidad de Castilla La Mancha, and, in particular, to the San Pedro Martir staff, for its hospitality. It is also indebted to the Local Organizing Committee for its dedication and the good atmosphere that prevailed at any moment, and to the Scientific Organizing Committee for its excellent work. | Astronomical Highlights of the SEA decade (Invited Review).- Galaxies and Cosmology.- The Intergalactic Medium Observed in Ly $\alpha$  Absorption.- Simulations of precessing jets.- The case for a universal density profile in...
