REDUCTION, TIME AND REALITY: STUDIES IN THE PHILOSOPHY OF THE NATURAL SCIENCES

Cambridge University Press. Paperback. Book Condition: New. Paperback. 216 pages. Dimensions: 8.8in. x 5.9in. x 0.6in. The contributors to this 1981 volume are all concerned with scientific realism, but each author questions or rejects aspects of the way it has traditionally been discussed. There are three main foci of attention - reduction, time and modality - and the analyses bring out complexities and difficulties obscured in the standard accounts of scientific realism. The papers are powerful and original, representing some of...

Reviews

This publication is wonderful. Better than ever, though I am quite late in starting to read this one. I am very happy to tell you that here is the best book we have read through in my personal daily life and could be the finest PDF for actually.

It is really a remarkable eBook that we actually have ever read through. I actually have studied and I am confident that I am going to study once more yet again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
