I DOCUMENT ORGANIZATION This document is a guide for using the Database Access Man-ager for the Software Engineering Laboratory (DAMSEL). The DAMSEL system provides access to the Software Engineering Laboratory (SEL) database via various screen interfaces. The functions available to the user in the DAMSEL system are described in the four sections of this document. Section 1 provides an overview of the SEL database. Section 2 dis-cusses the view screens and report generation functions that are available to all DAMSEL users. Section 3 concerns data entry procedures for librarians. Finally, Section 4 de-scribes the functions available to the database administrator (DBA). 1. 2 SEL DATABASE OVERVIEW The SEL database stores data collected by the SEL on numerous software development projects. These data are obtained from forms completed by the various projects personnel. (See Section 1. 3 for a further discussion of these forms.) The data from these forms are stored in relational databases, implemented using the ORACLE...
